

## Financial Controller

Cambridge, MA, United States

### Company Description

RaySecur is revolutionizing security imaging with the world's first desktop scanners capable of seeing inside objects, such as packages and letters. A game-changer relative to x-rays which produce static 2D images and use ionizing radiation, our mmWave systems are completely safe and provide a real-time, 3D view of concealed items in full motion. Our systems are used by Fortune 500 companies and governments around the world and are backed by cutting-edge AI software and expert support through our partnership with the EOD Warrior Foundation, providing our clients with access to the world's leading threat experts on demand.

### Job Description

As Controller at RaySecur you will be responsible for implementing and managing our accounting systems and processes. In addition, you will have ample opportunity to work with senior leadership supporting the development of financial models and forecasts to guide strategic planning. At the same time no task is beneath you and are not afraid to dive in and make things happen. You are confident in your ability to deliver results but have the humility to learn from those around you.

### Who We Are

We are a fast-paced and dynamic, venture-backed start-up with significant customer traction helping to make the world a safer place. We are entrepreneurs at heart, always challenging the status quo and always ready to tackle the next challenge. We think strategically but are not afraid to roll-up our sleeves and get the job done no matter how big or small. We are dedicated and focused, but also make time to play and celebrate our successes.

### Who You Are

You are an achiever with a track record of consistently exceeding expectations and are motivated to grow your career. You are detail-oriented, capable of implementing systems and processes, but also a doer willing to do what it takes to get things done. You are excited to tackle new challenges but also understand the realities of an early-stage company and can implement the processes and structure needed as the organization grows.

### Responsibilities

- Implement and manage accounting systems for RaySecur US and our Canadian subsidiary
- Assist with day-to-day bookkeeping and accounting activities; preparation of financial statements and reports
- Cash management, including vendor financing programs and inventory management
- Support financial modeling, forecasting, and budgeting

### Required Qualifications

- Minimum 5 years' experience in a Controller role
- Bachelor's degree in accounting, business administration, or equivalent, preference given to CPA, CMA
- Experienced with inventory accounting for manufacturing organizations
- Prior experience with government contracts and venture-backed companies a plus
- Proficient in QuickBooks and job-cost accounting

**Location:** Raysecur is located in Cambridge, MA within walking distance of the Alewife station on the red line.
